

NON-MEMBER CREDIT REFERENCE

Responding to credit reference requests from non-member companies drains time and resources from every credit department. Effectively outsource the task of responding to credit reference requests.

If your company electronically contributes its full file A/R data through a participating NACM Affiliate to the NACM National Trade Credit Report, a company looking to your company to supply a reference can obtain it immediately online. Simply refer non-member company requests to your Affiliate's website to automate the process for much less than the cost of having your team respond.

WHY USE IT

- Gain time back to your department
- Redeploy valuable resources to more significant tasks
- Reduce risk through consistent, historical and factual reporting

THE POWER IS AT YOUR FINGERTIPS!

- Members control and distribute the security code
- Members can change the code at any time and limit the number of searches and references pulled
- Usage Monitor List is available on your dashboard to easily view reference activity
